

Simple Sessions

*fresh
Modern
real*

About

I photograph connections.

Capturing families loving on the ones they cherish most.

Because those photographs will remind you of what love feels like.

Of what is most important.

And you will want to keep them forever.

Thankfully capturing life doesn't take a lot of time.

It's not pretentious or posed or stiff, which is what's why I love Simple sessions.

We take 30-minutes, 2-rolls, to let you be you.

Because that is what you do best.

It's quick, it's fun, it's real.

In the end, you walk away with a bundle of goodies to enjoy and memories made into art.

Simple Sessions are only offered
Weekdays, Monday - Thursday at
9am & 3pm

WHY FILM?

I am a 100% Film Photographer. I shoot Film because it gets the images I love, with no fluff, no pretense and no excess. All of my images are captured on Medium Format Film, then sent for processing & scanning at some of the best labs in the world.

Film is a real, tactile, emotional relationship between the photographer, light, emulsion & camera. The results are amazing, continually blowing me away.

Film has an amazing depth, richness, color, sharpness, quality, which hands down cannot be replicated.

Film is incredibly special and will always be an irreplaceable medium worthy of being cherished as family heirlooms.

Film has authenticity exceeding all expectations. I think you will agree.
